

SURVEYS FOR MARTIN BAKER AIRCRAFT

THE CHALLENGE

- ⚡ Conduct utility and topographical surveys at Martin Baker UK facilities
- ⚡ We carried out detailed Topographical, Ground Penetrating Radar (GPR) and Utility Detection surveys at Martin Bakers' manufacturing facility in Norton London and their testing airfield in Oxfordshire

OUR SOLUTION

- ⚡ Multiple surveyors to meet tight client deadlines
- ⚡ Close cooperation with Highways England to works within the main A413 material road
- ⚡ Liaison with the Healthy and Safety Executive to ensure compliance with strict explosives guidelines

“Despite strict deadlines and challenging working environments, the team worked well to deliver ahead of schedule.”

- Ian Stephens
Head of Surveying
